

"Renu" Post Consumer use 100% Polyester

The Creative Artisans by HG Group
Since 2002

dushyant@thecreativeartisans.com

Our Approach

We do not use **Polyester** unless **from recycled garments**. As we do believe fossil fuel fabrics are harmful for the environment.

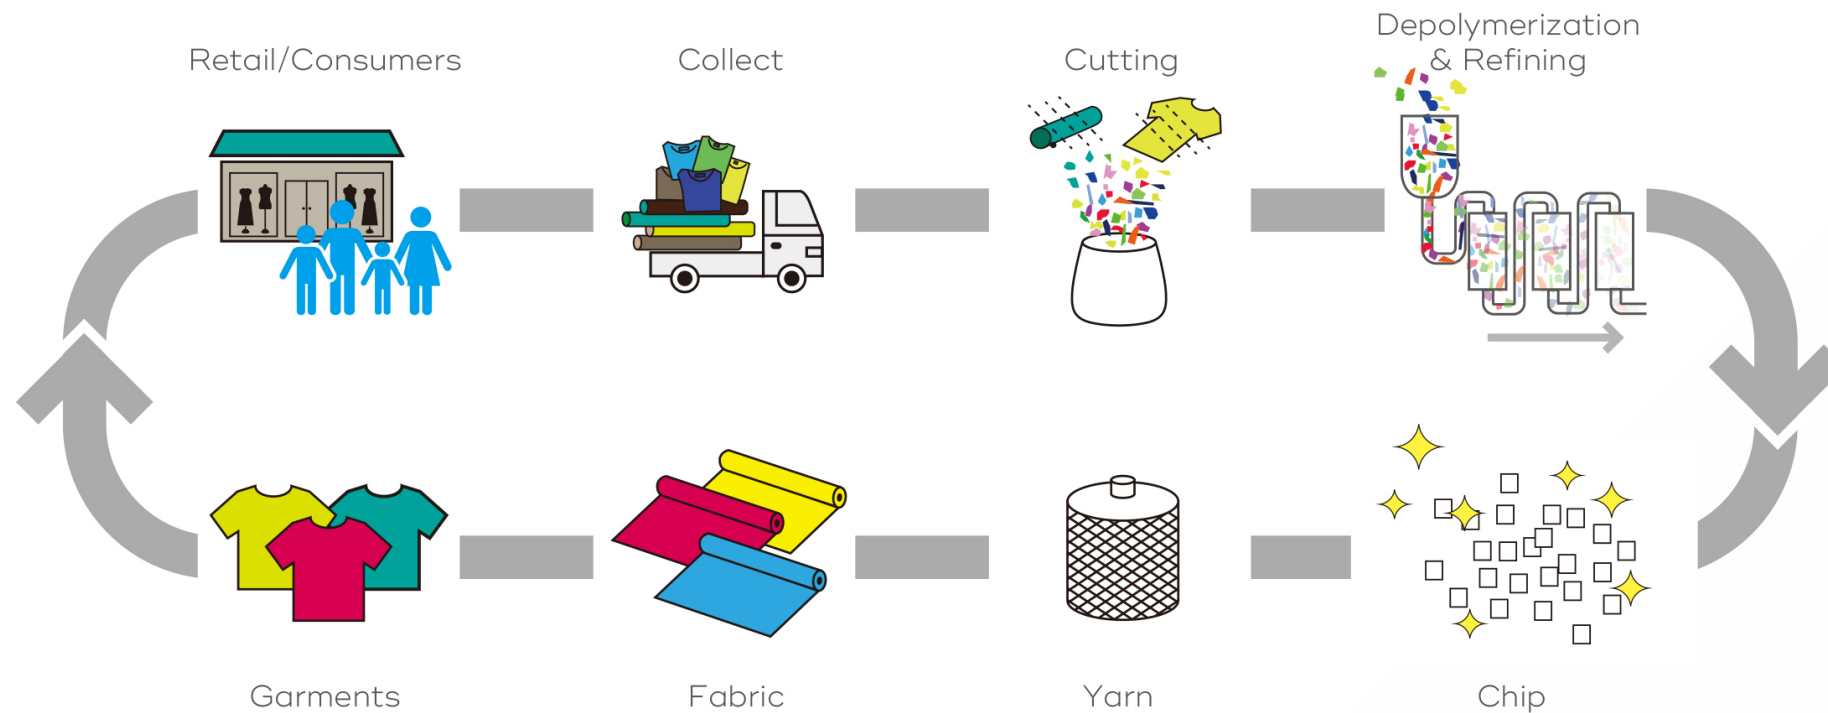

So we offer flowy nice 100% Polyester with help of ITOCHU “Renu” project

Design we offer **hand dyed Indigo**; **Digital prints**.

RENU

The unique TM technology which RENUTM applies enables recycling old garment and textile into newly born recycled polyester and polyester material while the conventional recycling approach can only use selected pet bottle wastes to be put into its recycling process. The depolymerization and refining processes of RENUTM are the keys to produce brand-new polyester material with properties compatible to virgin products.

We use RENUTM for our bulk orders in polyester. We **do not use VIRGIN polyester** as it harms the environment.
