Artisanal silk hand brush print

Discharge printing, also called Extract Printing is a method of applying a design to dyed fabric by printing a colour-destroying agent, such as chlorine or hydrosulphite to bleach out a white or light pattern on the darker coloured ground.

Discharging is the process of removing dye with various chemicals or bleach, often in pleasing patterns or designs through Shibori or Tie Dye methods, or by stamping, stencilling or block printing.

Hand Brush Printing :

Unlimited scope of creative solutions,
You just need to tell us motif colors
and inspiration ideas.

Our team will make the range of Silk
brush print ideas for you.

We offer this on Japanese Shibori as
well as in fusion with other hand
techniques.

So limitations is just nothing!

If you wish to make this in
digital/rotary screen we can offer that
well so no worries on volume orders
too.
